

Bunion Aid[®] Flexible Splint for Bunion Relief

A 3-in-1 aid that provides the benefits of a day and a night splint for:

- Bunion pain relief
- Bunion protection
- Bunion correction

Patented and Award winning* design Clinically studied** for the treatment of light-to-moderate Hallux valgus and improved gait

AIRCAST Bunion Aid®

Bunion Aid[®] is a hinged bunion splint with adjustable straps and a comfortable gel cushion that protects irritated tissue, distributes pressure and provides corrective support.

Clinically studied for the treatment of light-to-moderate Hallux valgus and improved gait.** Ideal for treating bunion pain, mild or moderate mal-positioning of the big toe, or to maintain post-surgical fixation of the big toe. Wearing this aid helps prevent bunion progression, overlapping toes, and hammer toes; limiting the need for surgery.

Award-winning, U.S. patented, flexible splint engineered and made in Germany.*

Ordering Information:

One size splint fits Right or Left foot.

	Description	Size
81-03H	Bunion Aid®	Universal
81-03E	Bunion Aid® Plus Replacement Set	Universal
